

Goals of Service

- **Maintain** City buildings and site infrastructure
- **Ensure** compliance with all applicable legislation
- **Provide** professional project management services
- **Develop and maintain** integrated capital plans and a long-term, facility asset management strategy
- **Ensure** the secure, safe use and enjoyment of City facilities, parks and the transit system
- **Support** and promote actions to mitigate climate change through energy conservation and environmental sustainability
- **Ensure** accessibility principles are incorporated into all business functions across City services
- **Ensure** the ongoing strategic configuration of office space to increase the use of underutilized spaces and support a hybrid work model
